The affordable countertop solution

When your wood, laminates and scratch-easy surfaces let you down, you know it's time to look for a more durable surface. Eezi Quartz countertops offer you a good-looking kitchen or bathroom finish, with the promise of durability.

Why choose Eezi Quartz?

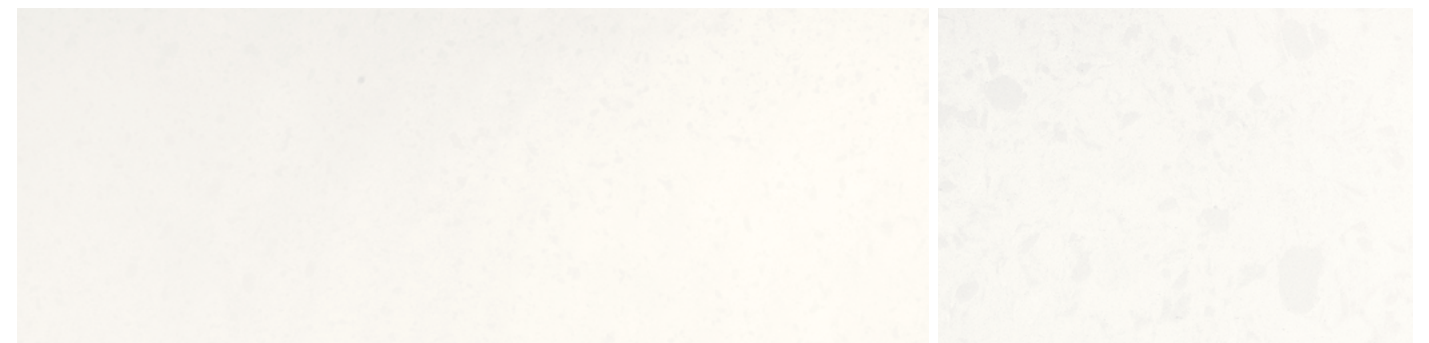

Quartz is one of nature's hardest minerals, making it a good choice for a durable surface. Each Eezi Quartz surface is made of quartz aggregate, which is why it can last so long and still look so good! Our countertops come in 20mm thick slabs and are great for kitchen countertops, bathroom vanities and backsplashes. With many popular colours to choose from, and a 15-year warranty, you are bound to find an Eezi Quartz countertop to suit your home interior.

Iceberg

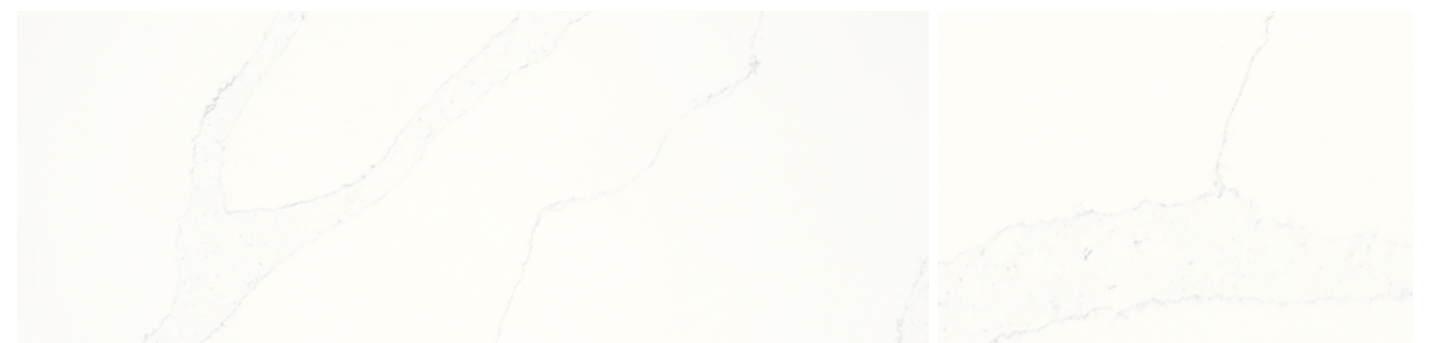

Magnolia

Stratus

Bianco Venato

Bianco Calacatta

*Just like you wouldn't marry someone without meeting them first, if you're doubtful, rather go and meet your future Eezi Quartz countertops in person before buying and installing. Eezi Quartz surfaces are available in 20mm thickness.

Calacatta Fine

Warranty

Eezi Quartz is easy-going and doesn't need a lot of attention to keep its good looks. But, it's nice to know that there is a warranty in place should anything go wrong. Eezi Quartz offers a 15-year residential warranty and a 6-year commercial warranty. Remember that quartz surfaces are designed for interior use and therefore best suited for shaded areas or away from north-facing windows to protect from exposure to direct sunlight or UV rays.

Care & maintenance

Cleaning your Eezi Quartz engineered quartz surfaces is a breeze. Simply use warm water and a mild detergent in a spray-and-wipe manner for the best results. Remember that unlike marble and granite, Eezi Quartz doesn't need sealing. If you need more than a mild detergent to get rid of stubborn marks, use a non-abrasive spray cleaner, such as our Eezi Quartz Spray Cleaner (available online at www.eeziquartz.co.za) and a non-scratch sponge or pad. Always rinse with clean water to remove any residue.

Eezi Quartz Spray Cleaner is NOT TO BE USED on textured Eezi Quartz surfaces such as Fawn, Cremalat, Misty Pearl, Grigio Cemento, and Wrought Iron.
